Inclusiveness and collaboration will be the keys to overcoming the many new challenges the water sector will face over the coming year. The return of AWWA’s Annual Conference & Exposition (ACE) in 2021 will provide the forum for you to get involved.

Help us inform, influence and impact our industry by participating in the ACE21 professional program. We are encouraging abstract submissions in the following subject areas; information technology, instrumentation and control, automation and data management, advanced water treatment, and smart water technologies.

Session Topics Include:

- Advanced Water Treatment & Technologies
- Asset Management, Renewal and Replacement
- Conservation, Water Use Efficiency, and Water Loss
- Design, Construction and Delivery
- Distribution, Plant Operations, and Maintenance
- Finances, Affordability, and Rate Setting
- Emerging Topics, New Technologies
- Research
- Regulatory & Legislative
- Source Water Protection
- Small Systems Issues
- Smart Water, IT, Data Science, I & C, Automation
- Stakeholder Engagement and Consumer Outreach
- Stormwater Management
- Water Quality and Treatment
- Water Resources and Planning, Climate Impacts
- Water Reuse Issues
- Wastewater Collection, Treatment, Resource Recovery
- University Forum
- Utility Planning and Management
- Utility Risk and Resilience, and Cybersecurity
- Young Professionals
