Membership Benefits

Water Knowledge, Resources, and Community
Water Professionals Face Greater Challenges than Ever Before

From finding ways to fund infrastructure improvements to water treatment, quality and distribution best practices, AWWA Operations/Administrative Membership provides you with the technical know-how to face your daily challenges, maintain your licensure, and protect public health.

➤ Be prepared for what’s next in the water sector
➤ Earn and maintain your licensure
➤ Connect with other water professionals to share solutions to common problems
➤ Make a difference

About AWWA

Established in 1881, the American Water Works Association is the largest nonprofit, scientific and educational association dedicated to managing and treating water, the world’s most important resource. Through membership, AWWA creates products, services and information that help utilities with day-to-day operations, inform the public, improve public health, protect the environment, strengthen the economy and enhance our quality of life.
Be Prepared
Even the most experienced operator must stay up-to-date on developments in the water sector. You will receive a subscription to Opflow Magazine. This monthly magazine will:

➤ Keep you informed on best practices in the water sector
➤ Provide hands-on guidance to improve utility operations
➤ Offer in-depth articles on important topics such as water treatment, quality and distribution
➤ Test your knowledge with quizzes featuring questions found on certification exams

Find the latest news and research reports, like the State of the Water Industry report, at awwa.org and through AWWA Connections, a bi-weekly newsletter that features community news, colleague profiles, career tips and more.

Earn and Maintain Licensure
Staying sharp requires continued learning. Earn the CEU credits you need to maintain your license. AWWA offers a variety of ways to earn CEUs:

➤ In-person workshops and conferences
➤ Training guides
➤ Webinars
➤ eLearning Courses

As a member, you will save up to 40% on continuing education and training materials and be able to earn CEUs in a way that fits your busy schedule.

“I have thoroughly enjoyed all of the benefits that membership offers. It’s given me access to valuable technical resources, which I use on a regular basis, and more importantly, it’s connected me to like-minded individuals... in my region, as well as from around North America.”

Brad McIlwain
Luminultra Technologies LTD
Dartmouth, NS
Community Engineering Corps
Help underserved communities make local improvements. Community Engineering Corps harnesses the technical expertise of volunteers to help improve local infrastructure and community quality of life in the United States. Join and get involved today!
communityengineeringcorps.org

Connect With Water Professionals
Talk with your peers at local events and meet water-sector leaders at conferences across North America. Take advantage of the opportunities to share best practices and learn what others have done when they have confronted a crisis. Make a connection that could lead to your next job.

Your Local AWWA Section
Your Section is your local connection to AWWA and provides:
➤ Local events and CEU opportunities
➤ Region-specific news and information
➤ Ways to directly impact local water issues
➤ Networking opportunities in your community

The One AWWA Operator Scholarship is a partnership between AWWA’s Water Equation (WE) and AWWA Sections. The scholarship provides funding for books, tuition, training, continuing education, and certification to operators at water and wastewater treatment plants.

Since its inception, over $75,000 has been awarded to water and wastewater operators. Together, we are funding the future of water.

Make a Difference
Share your passion about water with others. From participating in a Community Engineering Corps project to competing on a tapping team, AWWA has the right volunteer opportunity for you. There are over 160 volunteer committees to choose from.

Help shape smart policies based on sound science. The Water Utility Council and AWWA’s Government Affairs department work hard to make sure your voice is heard in legislative and regulatory matters. AWWA Sections gather feedback from members and reach out to local officials year round.
# 2019 Membership Application

## Operations/Administrative Member

Contact Customer Service at 1.800.926.7337 or 303.794.7711
service@awwa.org

## Annual Dues (A1)

**Operations/Administrative $75**

Any operations and administrative staff below the supervisory level at a utility with more than 1,000 service connections. Any staff member at a utility with fewer than 1,000 service connections. (06)

## Section Dues (A2)

AWWA has 43 local Sections in North America. You are automatically enrolled in a Section based on your address. Some Sections require additional fees to better serve you.

### Your State/Province

- Water Research
- Water Resources/Planning
- Workforce Strategies
- Young Professionals

Dues rates valid through December 31, 2019. Dues are not deductible as charitable contributions for income tax purposes. Dues may be considered ordinary and necessary business deductions. The following is for USPS periodical mailing requirements only. In some AWWA Sections, a portion of the Section allotment equal to 50% or more of the domestic subscription rate charged for the Section periodical will be allocated toward a subscription to that periodical. Allocation for each publication recipient authorized—Journal—American Water Works Association—$50; Opflow—$16. Members with APO/FPO addresses will receive e-periodicals only. NOTE: Members’ contact information is protected under AWWA's Privacy Policy.
Resources for you

Water professionals must increasingly manage water in all its stages. AWWA has the information and experts to help you effectively and efficiently manage water from source to tap to reintroduction into the environment. Find out about current issues, technical resources, and educational opportunities, all in one place. Subjects include:

- Asset Management
- Climate Change
- Drought
- Emergency Preparedness
- Health Effects
- Lead
- Membrane Process and Technology
- Reuse
- Source Water Protection
- Wastewater
- Water Conservation
- Water Loss Control

“AWWA is an organization of water professionals. From local treatment plant operators and managers, scientists, engineers, environmentalists, manufacturers, academicians, and regulators, we all hold genuine interest in maintaining an adequate water supply and preserving public health; but, when we all work together in our different capacities, made easier through AWWA’s organization locally and nationally, we can provide world-class clean and sustainable life-giving water to the public.”
