Water Treatment Plant Residuals Field Guide

Nicholas G. Pizzi

American Water Works Association
Contents

Acknowledgments ................................ vii

Introduction .......................................... ix

Chapter 1—Regulations and Goals ............ 1
Filter Backwash Recycle Rule 1
National Pollutant Discharge Elimination System 2

Chapter 2—Operations ......................... 5
Theoretical Considerations for Operators 5
Types of Waste 6
Waste Handling 11

Chapter 3—Nonmechanical and Mechanical Dewatering Processes .... 23
Polymer Screening 23
Nonmechanical Dewatering: Sand Beds, Lagoons, and Solar/Evaporation Ponds 25
Mechanical Dewatering: Filter Presses, Centrifuges, Belt Presses, and Vacuum Systems 29
Operational Techniques 36
Chapter 4—Design Theory ............ 41
Operational Use of Design Calculations 42
Operational Goal Setting  45

Glossary ......................... 47

References ......................... 57

Appendix ......................... 59
