AWWA Standard

This document is an American Water Works Association (AWWA) standard. It is not a specification. AWWA standards describe minimum requirements and do not contain all of the engineering and administrative information normally contained in specifications. The AWWA standards usually contain options that must be evaluated by the user of the standard. Until each optional feature is specified by the user, the product or service is not fully defined. AWWA publication of a standard does not constitute endorsement of any product or product type, nor does AWWA test, certify, or approve any product. The use of AWWA standards is entirely voluntary. This standard does not supersede or take precedence over or displace any applicable law, regulation, or code of any governmental authority. AWWA standards are intended to represent a consensus of the water supply industry that the product described will provide satisfactory service. When AWWA revises or withdraws this standard, an official notice of action will be placed on the first page of the Official Notice section of Journal – American Water Works Association. The action becomes effective on the first day of the month following the month of Journal – American Water Works Association publication of the official notice.

American National Standard

An American National Standard implies a consensus of those substantially concerned with its scope and provisions. An American National Standard is intended as a guide to aid the manufacturer, the consumer, and the general public. The existence of an American National Standard does not in any respect preclude anyone, whether that person has approved the standard or not, from manufacturing, marketing, purchasing, or using products, processes, or procedures not conforming to the standard. American National Standards are subject to periodic review, and users are cautioned to obtain the latest editions. Producers of goods made in conformity with an American National Standard are encouraged to state on their own responsibility in advertising and promotional materials or on tags or labels that the goods are produced in conformity with particular American National Standards.

CAUTION NOTICE: The American National Standards Institute (ANSI) approval date on the front cover of this standard indicates completion of the ANSI approval process. This American National Standard may be revised or withdrawn at any time. ANSI procedures require that action be taken to reaffirm, revise, or withdraw this standard no later than five years from the date of publication. Purchasers of American National Standards may receive current information on all standards by calling or writing the American National Standards Institute, 25 West 43rd Street, Fourth Floor, New York, NY 10036; 212.642.4900; or emailing info@ansi.org.

All rights reserved. No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information or retrieval system, except in the form of brief excerpts or quotations for review purposes, without the written permission of the publisher.

The C509 Subcommittee, which developed this standard, had the following personnel at that time:

T. Chad Harbour, Chair

L.R. Dunn, U.S. Pipe & Foundry Company, Birmingham, Ala. (AWWA)
L.W. Fleury Jr., Mueller Group, Smithfield, R.I. (AWWA)
T.C. Harbour, Clow Valve Company, Oskaloosa, Iowa (AWWA)
R.L. Larkin, J and S Valve, Birmingham, Ala. (AWWA)
R. Looney, American AVK Company, Minden, Nev. (AWWA)
N.O. Mejia, L.A. Department of Water and Power, Los Angeles, Calif. (AWWA)
T.J. Mettler, Waterous Company, South St. Paul, Minn. (AWWA)
K.J. Wright, EJ, USA Inc., East Jordan, Mich. (AWWA)

The AWWA Standards Committee on Gate Valves and Swing Check Valves, which reviewed and approved this standard, had the following personnel at the time of approval:

Joseph J. Gemin, Chair

General Interest Members

J.M. Assouline, CH2M HILL, Englewood, Colo. (AWWA)
M.D. Bennett, MWH, Cleveland, Ohio (AWWA)
D. Dieffenbach, Carollo, Phoenix, Ariz. (AWWA)
J.J. Gemin, AECOM, Kitchener, Ont., Canada (AWWA)
J. Hebensreit, Underwriters Laboratories Inc., Northbrook, Ill. (UL)
M.C. Johnson, Utah State University Water Research Laboratory, Logan, Utah (AWWA)
S.M. Passarelli,† Standards Engineer Liaison, AWWA, Denver, Colo. (AWWA)
T.R. Volz, AECOM, Denver, Colo. (AWWA)
M.P. Yoke, Anniston, Ala. (AWWA)

* Alternate
† Liaison, nonvoting
Producer Members

J.V. Ballun, Val-Matic Valve & Manufacturing Corporation, Elmhurst, Ill. (AWWA)
J. Bolender, J and S Valves, Huffman, Texas (AWWA)
D.E. Burczynski,* Kennedy Valve, Elmira, N.Y. (AWWA)
L.W. Fleury Jr., Mueller Group, Chattanooga, Tenn. (AWWA)
T.C. Harbour, Clow Valve Company, Oskaloosa, Iowa (AWWA)
R.L. Larkin,* J and S Valve, Gardendale, Ala. (AWWA)
R. Looney, American AVK Company, Minden, Nev. (AWWA)
T.J. Mettler, Waterous Company, South St. Paul, Minn. (AWWA)
D.B. Scott,* American Flow Control, Birmingham, Ala. (AWWA)
J.H. Wilber,* American AVK, Littleton, Colo. (AWWA)
K.J. Wright, EJ, USA Inc., East Jordan, Mich. (AWWA)

User Members

B. Hasanabadi, Colorado Springs Utilities, Colorado Springs, Colo. (AWWA)
S. Hattan, Tarrant Regional Water District, Fort Worth, Texas (AWWA)
K.S. Jeng-Bulloch, City of Houston, Houston, Texas (AWWA)
M. MacConnell, Metro Vancouver, Burnaby, B.C., Canada (AWWA)
J.S. Olson, Front Range Standard Committee, Littleton, Colo. (AWWA)
A. Quiniones, US Bureau of Reclamation, Denver, Colo. (AWWA)
D. Rausch, City of Aurora Water Department, Aurora, Colo. (AWWA)
P.J. Ries, Denver Water Department, Denver, Colo. (AWWA)

* Alternate
† Liaison, nonvoting
### Contents

All AWWA standards follow the general format indicated subsequently. Some variations from this format may be found in a particular standard.

### Standard

1. **General**
   - 1.1 Scope | 1
   - 1.2 Purpose | 2
   - 1.3 Application | 2

2. **References** | 2

3. **Definitions** | 5

4. **Requirements**
   - 4.1 Data to Be Supplied by the Manufacturer | 6
   - 4.2 Materials | 7
   - 4.3 General Design | 10
   - 4.4 Detailed Design | 11

5. **Verification**
   - 5.1 Testing | 22
   - 5.2 Plant Inspection and Rejection | 24

6. **Delivery**
   - 6.1 Marking | 25
   - 6.2 Preparation for Shipment | 25
   - 6.3 Affidavit of Compliance | 25

### Appendixes

A. **Installation, Operation, and Maintenance of Resilient-Seated Gate Valves**
   - A.1 General | 27
   - A.2 Unloading | 27
   - A.3 Receiving Inspection | 27
   - A.4 Storage | 28
   - A.5 Installation | 28
   - A.6 Maintenance | 31
   - A.7 Repairs | 32

### Tables

1. Design Torque | 11
2. Minimum Full Waterway Sizes | 11
3. Minimum Thickness of Body and Bonnet | 12
4. Minimum Thickness for Ductile-Iron Connecting End Flanges | 13
