Factory-Coated Bolted Carbon Steel Tanks for Water Storage

Effective date: Jan. 1, 2020.
This edition approved June 7, 2019.
Approved by American National Standards Institute June 11, 2019.
AWWA Standard

This document is an American Water Works Association (AWWA) standard. It is not a specification. AWWA standards describe minimum requirements and do not contain all of the engineering and administrative information normally contained in specifications. The AWWA standards usually contain options that must be evaluated by the user of the standard. Until each optional feature is specified by the user, the product or service is not fully defined. AWWA publication of a standard does not constitute endorsement of any product or product type, nor does AWWA test, certify, or approve any product. The use of AWWA standards is entirely voluntary. This standard does not supersede or take precedence over or displace any applicable law, regulation, or code of any governmental authority. AWWA standards are intended to represent a consensus of the water industry that the product described will provide satisfactory service. When AWWA revises or withdraws this standard, an official notice of action will be placed in the Official Notice section of Journal AWWA. The action becomes effective on the first day of the month following the month of Journal AWWA publication of the official notice.

American National Standard

An American National Standard implies a consensus of those substantially concerned with its scope and provisions. An American National Standard is intended as a guide to aid the manufacturer, the consumer, and the general public. The existence of an American National Standard does not in any respect preclude anyone, whether that person has approved the standard or not, from manufacturing, marketing, purchasing, or using products, processes, or procedures not conforming to the standard. American National Standards are subject to periodic review, and users are cautioned to obtain the latest editions. Producers of goods made in conformity with an American National Standard are encouraged to state on their own responsibility in advertising and promotional materials or on tags or labels that the goods are produced in conformity with particular American National Standards.

CAUTION NOTICE: The American National Standards Institute (ANSI) approval date on the front cover of this standard indicates completion of the ANSI approval process. This American National Standard may be revised or withdrawn at any time. ANSI procedures require that action be taken to reaffirm, revise, or withdraw this standard no later than five years from the date of ANSI approval. Purchasers of American National Standards may receive current information on all standards by calling or writing the American National Standards Institute, 25 West 43rd Street, Fourth Floor, New York, NY 10036; 212.642.4900; or e-mailing info@ansi.org.
Committee Personnel

The D103 Revision Task Force, which developed this standard, had the following personnel at the time:

Richard Austin, Chair
R. Austin, Brown and Caldwell, Irvine, Calif.
J.E. Marquez, Superior Tank Company Inc., Rancho Cucamonga, Calif.
L.D. Scott, Tank Industry Consultants, Atascadero, Calif.
G.R. Stein, Tank Industry Consultants, Indianapolis, Ind.
J.D. Wicoff, Tank Connection, Rogers, Ark.
A. Wilding, Permastore Ltd., Eye, Suffolk, England

The AWWA Standards Committee on Steel and Composite Water Storage Tanks, which reviewed and approved this standard, had the following personnel at the time of approval:

Gregory R. Stein, Chair

General Interest Members

J.W. Birkhoff, Birkhoff, Hendricks & Carter LLP, Dallas, Tex.
J.D. Brock, Consulting Services Logistics, Toledo, Ohio
E. Darrimon, Bay Area Coating Consultants Inc., Denair, Calif.
R.E. Gell, O’Brien & Gere Engineers Inc., Syracuse, N.Y.
M.L. Hickey, Murraysmith, Portland, Ore.
F.S. Kurtz (liaison, nonvoting), Standards Engineer Liaison, AWWA, Denver, Colo.
R. Perez, Greeley and Hansen, Indianapolis, Ind.
L.D. Scott (alternate), Tank Industry Consultants, Atascadero, Calif.
G.R. Stein, Tank Industry Consultants, Indianapolis, Ind.
J.I. Strand, CBS Squared Inc., Chippewa Falls, Wis.
T.A. Tovey, Jacobs Engineering, Portland, Ore.
Producer Members

C. Brown (alternate), Tnemec Company Inc., Kansas City, Mo.
G.A. Burke, Caldwell Tanks Inc., Louisville, Ky.
W.J. Czaska, McDermott, Plainfield, Ill.
J.W. Davis, Tesla NanoCoatings Inc., Massillon, Ohio
K.T. Fuller, Phoenix Fabricators and Erectors LLC, Avon, Ind.
J. Grendzinski (alternate), Landmark Structures, Wheaton, Ill.
B.E. Kromer, Tank Builders Inc., Euless, Tex.
R.L. Moore, Tnemec Company Inc., Kansas City, Mo.
R. Pawski, Landmark Structures, Wheaton, Ill.

User Members

J. Camarena, East Bay Municipal Utility District, Oakland, Calif.
T.M. Dawson Jr., Emerald Coast Utilities Authority, Pensacola, Fla.
N.J. Meder, Connecticut Water Co., Clinton, Conn.
R.B. Potts, Louisville Water Company, Louisville, Ky.
G. Terrell, Birmingham Water Works Board, Birmingham, Ala.
C. Xiao, City of Phoenix Water Services Dept., Phoenix, Ariz.
# Contents

All AWWA standards follow the general format indicated subsequently. Some variations from this format may be found in a particular standard.
