

Drinking Water Week | May 6-12, 2018

## Social Media Posts

### Day 1 – Introduction to theme of “Protect the Source”

We’re kicking off #DrinkingWaterWeek today! Celebrate by caring for your #tapwater and protecting it at its source. #ProtecttheSource #AWWA ***[Include link to relevant information here.]***

It’s Drinking Water Week! Celebrate by caring for your tap water and protecting it at its source. How can you personally protect your local water source? ***[Include link to relevant information here.]***

### Day 2 – Get to know your local water source

Get to know your #tapwater and your local water source by reviewing your Consumer Confidence Report or talk to your #waterutility this #DrinkingWaterWeek. #ProtecttheSource #AWWA ***[Include link to relevant information here.]***

Drinking Water Week continues! This is a good time to get to know your tap water and find out where your drinking water source is. Review your Consumer Confidence Report or talk to your water utility. ***[Include link to relevant information here.]***

### Day 3 – Partnerships to protect source water

We’re urging collaboration between #waterutilities and #farmers this #DrinkingWaterWeek to protect our source water and our #drinkingwater. #ProtecttheSource #AWWA ***[Include link to relevant information here.]***

Collaboration between water utilities and farmers is important this Drinking Water Week to protect our source water, which will assure safe drinking water for our communities. ***[Include link to relevant information here.]***

#### **Day 4 – Eliminate lead pipes and plumbing from homes**

Replace lead-based #water pipes and plumbing this #DrinkingWaterWeek! Talk to a plumber and your #waterutility for help. #ProtecttheSource #AWWA ***[Include link to relevant information here.]***

This Drinking Water Week is a good time to check and replace lead-based water pipes and plumbing in your home. Talk to a plumber and your local water utility about doing that! ***[Include link to relevant information here.]***

#### **Day 5 – Encourage conservation practices**

#DrinkingWaterWeek is ending! We have #conservation tips to help preserve your #tapwater and protect our precious water resources. See you in 2019! #ProtecttheSource #AWWA ***[Include link to relevant information here.]***

Drinking Water Week is ending! Check out our conservation tips to help preserve tap water and protect our precious water resources. See you in 2019! ***[Include link to relevant information here.]***
