	List of Figures	ix
	List of Tables	xiii
	Preface	xv
	Acknowledgments	xvii
Chapter 1	Introduction	1
	Background Information	1
	The Search for More Effective Water Treatment Techniques	2
	References	5
Chapter 2	Pretreatment: Management and Monitoring of Chemical Coagulation and Lime Softening	7
	Introduction	7
	Preoxidation	7
	Chemical Pretreatment Concepts	11
	Determining Appropriate Coagulation Chemistry and Evaluating the Results	15
	Practical Application of Methods for Determining and Monitoring Coagulation Chemistry	31
	Precipitative Lime Softening	32
	Summary	36
	References	37
Chapter 3	Chemical Feed and Mixing, Flocculation, and Clarification	39
	Introduction	39
	Chemical Feeders	39
	Mixing	43
	Flocculation	48
	Clarification	53
	Summary	70
	References	70
Chapter 4	Granular Media Filtration Concepts, Operation, and Management	71
	Introduction	71
	Media Properties and Filtration Concepts	71
	Managing Filter Operation	81
	Stopping and Restarting Filters Without Backwashing	95

	Summary	98	
	References	98	
Chapter 5	Water Treatment Under Difficult Raw Water Conditions		101
	Introduction	101	
	Variable Raw Water Turbidity	101	
	Variable Raw Water pH	102	
	High Color and Low Turbidity	102	
	High Turbidity and High Color/High NOM	103	
	Taste and Odor	105	
	Algae and Diatoms	106	
	Cold Water	109	
	Iron and Manganese	110	
	Extreme Conditions	112	
	Summary	113	
	References	113	
Chapter 6	Backwashing Filters		115
	Introduction	115	
	Backwashing Fundamentals	115	
	Backwashing Methods	123	
	Managing and Monitoring Backwash	125	
	Summary	132	
	References	132	
Chapter 7	Returning Filters to Service After Backwashing		133
	Introduction	133	
	Filter Ripening, the Initial Improvement Period	134	
	Procedures for Minimizing High Filtrate Turbidity When Starting Filters	135	
	Using Multiple Procedures to Control the Initial Turbidity Spike	143	
	Summary	145	
	References	145	
Chapter 8	Monitoring Filter Performance		147
	Introduction	147	
	Physical Performance of Filters	148	
	Filter Performance as Indicated by Water Quality	151	
	Summary	162	
	References	162	
Chapter 9	Quality Control for the Laboratory and Treatment Plant		163
	Introduction	163	

	Quality Control in the Laboratory	163	
	Treatment Plant Concerns Related to Quality Control		165
	Summary	173	
	References	173	
Chapter 10	Filter Inspection and Maintenance	175	
	Introduction: The Need for Filter Inspections		175
	Preparing for a Filter Inspection	178	
	Filter Inspection Procedures and Frequency	180	
	Detailed Descriptions of Filter Inspection Procedures		182
	Filter Maintenance Procedures	199	
	Summary	209	
	References	209	
Chapter 11	Slow Sand Filtration	211	
	Introduction	211	
	How Slow Sand Filters Work	212	
	Influence of Filter Design and Operation Parameters on Filter Performance	217	
	Source Water Quality for Slow Sand Filters	219	
	Operation, Monitoring, and Maintenance of Slow Sand Filters	221	
	Summary	227	
	References	227	
Chapter 12	Precoat Filtration	229	
	Introduction	229	
	Precoat Filtration Concepts	229	
	Filter Aid Materials	240	
	Appropriate Source Water Quality and Process Capabilities		241
	Recommended Operating Procedures	245	
	Inspection and Maintenance Activities	252	
	Summary	252	
	References	253	
	Glossary	255	
	Index	283	
	About the Author	295
