
WATER TREATMENT PLANT DESIGN

ABOUT THE AMERICAN WATER WORKS ASSOCIATION

The **American Water Works Association** is the authoritative resource for knowledge, information, and advocacy to improve the quality and supply of water in North America and beyond. AWWA is the largest organization of water professionals in the world. AWWA advances public health, safety, and welfare by uniting the efforts of the full spectrum of the entire water community. Through our collective strength we become better stewards of water for the greatest good of the people and the environment.

American Water Works Association
6666 W. Quincy Ave.

Executive Director: David LaFrance
Director of Publishing: Liz Haigh
Publication Manager: Gay Porter De Nileon

ABOUT THE ENVIRONMENTAL & WATER RESOURCES INSTITUTE OF THE AMERICAN SOCIETY OF CIVIL ENGINEERS

Founded in 1852, the American Society of Civil Engineers (ASCE) represents more than 146,000 members of the civil engineering profession worldwide, and is America's oldest national engineering society. Created in 1999, the Environmental & Water Resources Institute (EWRI) is an Institute of the American Society of Civil Engineers. EWRI services are designed to complement ASCE's traditional civil engineering base and to attract new categories of members who seek to enhance their professional and technical development in the fields of environmental and water resource engineering.

For more information on membership, publications, and conferences, contact:

EWRI of ASCE

If such services are required, the assistance of an appropriate professional should be sought.

CONTENTS

Contributors xv

Chapter 1. The Challenge of Water Treatment Plant Design **1.1**
Ian P. D. Wright, PEng, and Thomas J. Lane, PE.

The Purpose of This Handbook / 1.1
Background / 1.1
Today's Challenges / 1.3
Development of Water Treatment Design Projects / 1.7
References / 1.8

Chapter 2. Sustainability *Juliana Tang, PEng., LEED A.P.,
Holly L. Shorney-Darby, Ph.D., PE., Bruce E. Burris, PE., BCEE, and
Sean Bolongaro, PEng.* **2.1**

Introduction / 2.1
Sustainable Engineering / 2.2
Major Environmental Issues / 2.2
Analytical Tools / 2.3
Sustainable Design Standards / 2.7
Concepts of Sustainable Water Treatment / 2.9
Treatment and Sustainability Goals / 2.10
Water Supply / 2.10
Water Treatment Plant Design / 2.11
Integrated Design Process / 2.14
Project Specifications / 2.16
Infrastructure Construction / 2.17
Water Treatment Plant Operation / 2.18
Transmission and Distribution of Water / 2.19
Energy Efficiency in Water Treatment Plant Design / 2.19
Renewable Energy / 2.27
Examples of Current Initiatives / 2.39
References and Bibliography / 2.42

Chapter 3. Master Planning and Treatment Process Selection **3.1**
Matthew T. Valade, PE, and George P. Fulton

The Master Plan / 3.1
Drinking Water Quality Goals / 3.4
Treatment Options / 3.8
References / 3.16

Chapter 4. Design and Construction *R. Gary Fuller, P.E.,
Holly L. Shorney-Darby, P.E., and Richard G. Stratton, P.E.* **4.1**

Preliminary Design / 4.2
 Final Design / 4.6
 Bid and Construction Assistance / 4.11
 Alternate Delivery Approaches / 4.14
 References and Bibliography / 4.16

Chapter 5. Intake Facilities *Gerard R. Miller, Ph.D., Jeffrey W. Henson, P.E.,
and Steven N. Foellmi, P.E.* **5.1**

Introduction / 5.1
 Types of Intake Systems / 5.3
 Intake Design / 5.15
 Other Intake Design Considerations / 5.26
 Bibliography and References / 5.36

Chapter 6. Aeration and Air Stripping *John E. Dyksen, P.E.,
Robert R. Raczko, P.E., and Christopher J. Savino* **6.1**

Introduction / 6.1
 Principles of Aeration/Air Stripping / 6.2
 General Design Considerations / 6.6
 Waterfall Aeration/Air Stripping Design / 6.6
 Diffusion-Type Aeration / 6.25
 Mechanical Aeration / 6.29
 Pressure Aeration / 6.29
 Membrane Air Stripping / 6.30
 Pilot Testing / 6.33
 Bibliography and References / 6.35

Chapter 7. Mixing, Coagulation, and Flocculation *Paul J. Delphos, P.E.,
and Raymond D. Letterman, Ph.D., P.E.* **7.1**

Introduction / 7.1
 The Coagulation Process / 7.3
 Coagulation and Membrane Technology / 7.7
 Design of Chemical Mixing Facilities / 7.7
 Flocculation Process Design / 7.16
 Process Monitoring and Control / 7.26
 Bibliography and References / 7.26

Chapter 8. Clarification *William B. Dowbiggin, P.E., BCEE and
Simon Breese, M.A.Sc., PEng.* **8.1**

Presedimentation / 8.1
 Sedimentation with Coagulation / 8.5
 Conventional Clarification Design / 8.7
 High-Rate Clarification / 8.30
 Summary of Loading Rates for Clarification with Coagulation / 8.56

Acknowledgments / 8.57
 Bibliography and References / 8.57

Chapter 9. High-Rate Granular Media Filtration *Kevin Castro, PE., BCEE,
 Chandra Mysore, Ph.D., PE., BCEE, and Michael Chapman* **9.1**

Mechanisms of Filtration / 9.2
 Design Considerations / 9.2
 Filter Operation and Maintenance / 9.40
 Biological Filtration / 9.46
 Biological Activated Carbon (BAC) / 9.48
 Acknowledgments / 9.56
 References / 9.56

Chapter 10. Slow Sand and Diatomaceous Earth Filtration
*M. Robin Collins, Ph.D., PE., Mark P. Youngstrom, PE., and
 Michael V. Broder, PE.* **10.1**

Introduction / 10.1
 Slow Sand Filtration / 10.2
 Diatomaceous Earth Filtration / 10.33
 Acknowledgments / 10.47
 Bibliography and References / 10.47

Chapter 11. Oxidation and Disinfection *James C. Hesby, PE.,
 Nick L. Burns, PE., and Michael A. Oneby, PE.* **11.1**

Introduction / 11.1
 Regulatory Framework / 11.3
 Treatment by Chemical Oxidation / 11.12
 Chlorination / 11.16
 Chloramination / 11.20
 Chlorine Dioxide / 11.26
 Permanganate / 11.27
 Ozone / 11.29
 Advanced Oxidation Processes / 11.51
 Acknowledgments / 11.54
 Bibliography and References / 11.54

Chapter 12. Ultraviolet Disinfection *Paul D. Swaim, PE.,
 Christine A. Cotton, PE., and Karl G. Linden, Ph.D.* **12.1**

Principles of UV Disinfection / 12.2
 Applications for UV Technologies / 12.6
 Regulatory Requirements for UV Disinfection in North America / 12.8
 Water Quality and Treatment Effects on UV Disinfection / 12.12
 UV Disinfection Equipment / 12.15
 UV Disinfection Facility Planning, Design, and Project Implementation / 12.21
 Validation Testing / 12.36
 Construction, Testing, Start-Up, and O&M / 12.38
 Bibliography and References / 12.41

Chapter 13. Precipitative Softening *Doug Elder, P.E.,
Stephen J. Randtke, Ph.D., P.E., and Michael B. Horsley, P.E.* **13.1**

Water Hardness and Softening Treatment / 13.2
 Pretreatment / 13.6
 Softening Processes / 13.7
 Residuals Production / 13.14
 Softening Process Basins / 13.15
 Regulatory Considerations / 13.21
 Precipitative Softening Facility Design Considerations / 13.21
 Recent Trends in Softening / 13.24
 Sustainability Considerations / 13.25
 References / 13.26

Chapter 14. Ion-Exchange Applications in Water Treatment
Michael C. Gottlieb and G. Scott Watkins **14.1**

Introduction / 14.1
 Ion-Exchange Media / 14.3
 The Ion-Exchange Process / 14.8
 Cation-Exchange Processes / 14.10
 Anion-Exchange Processes / 14.15
 Terrorist-Related Substances / 14.31
 Ion-Exchange Demineralization / 14.33
 Regeneration Methods / 14.35
 Basics of Ion-Exchange System Design / 14.38
 Operation and Maintenance / 14.52
 Plant Design and Costs / 14.56
 Boundaries Between Suppliers, Consultants, and End Users / 14.64
 Recent Trends in Ion Exchange / 14.64
 Bibliography and References / 14.65

Chapter 15. Membrane Processes *Robert A. Bergman, P.E.,
Jesus Garcia-Aleman, PEng., Ph.D., and Rory Morgan, B.Eng, MEngSc, CEng* **15.1**

Types of Membrane Processes / 15.2
 Membrane System Components and Design Considerations / 15.7
 Membrane Unit Design / 15.29
 Posttreatment, Residuals, and Other Membrane Process Design Considerations / 15.52
 Bibliography and References / 15.60

Chapter 16. Activated Carbon Adsorption *Richard Brady, P.E., BCEE and
Melissa Moran, P.E., BCEE* **16.1**

Characteristics of Activated Carbon / 16.1
 Design of Powdered Activated Carbon Facilities / 16.6
 Design of Granular Activated Carbon Facilities / 16.16
 Options for Spent Granular Activated Carbon / 16.40
 Acknowledgments / 16.44
 References / 16.45

Chapter 17. Biological Processes *Bruce E. Rittmann, Youneng Tang, Kerry Meyer, William D. Bellamy, and Robert Nerenberg* **17.1**

Introduction and Historical Perspectives / 17.1
 Biological Treatment Reactors / 17.7
 Contaminants Addressed by Biological Treatment / 17.12
 Fundamental Design Bases / 17.15
 Is Biological Treatment the Right Approach? / 17.22
 Design Examples / 17.26
 References / 17.35

Chapter 18. Process Residuals *Mark J. Gross, P.E., Paul Malmrose, P.E., and David A. Cornwell, Ph.D., P.E., BCEE* **18.1**

Introduction and Overview / 18.1
 Residual Types, Quantities, and Characteristics / 18.2
 Residuals Disposal Alternatives and Regulatory Requirements / 18.10
 Planning and Design Considerations / 18.17
 Coagulation and Lime Softening Residuals Management / 18.26
 Membrane Process Residuals / 18.51
 Management of Residuals from Ion Exchange and other Adsorptive Processes Used to Remove Inorganic Contaminants / 18.66
 Auxiliary Solids Handling Systems / 18.70
 Acknowledgments / 18.75
 References / 18.75

Chapter 19. Pilot Plant Design and Construction *Robert A. Stoops, Steve Reiber, and Karla Kinser* **19.1**

Introduction / 19.1
 Staging and General Design / 19.9
 Unit Process Design and Operation / 19.11
 Pilot Plant Construction / 19.28
 References / 19.32

Chapter 20. Chemical Systems *Richard E. Hubel, P.E., Dan C. Gay, P.E., Steven E. Creel, P.E., and Vincent S. Hart, P.E., LEED AP* **20.1**

Fundamental Design Criteria / 20.2
 Equipment and Systems / 20.7
 Chemical and Chemical System Alternatives / 20.46
 Special Issues/Systems / 20.52
 Applicable Codes, Regulations, and Standards / 20.68
 Acknowledgments / 20.70
 References / 20.70

Chapter 21. Hydraulics *Lindle D. Willnow, P.E. and Paul W. Moulton, P.E.* **21.1**

Overall Plant Hydraulic Design / 21.2
 Head Loss Types and Calculations / 21.8

Filters / 21.25	
Hydraulic Design Hints / 21.31	
Ancillary Hydraulic Systems Design / 21.35	
Pumps / 21.38	
Hydraulic Transients / 21.56	
Acknowledgment / 21.56	
References / 21.56	

Chapter 22. Site Selection and Plant Arrangement *Darryl J. Corbin, P.E.,
David A. Timmermann, P.E., and Joseph C. Reichenberger, P.E., BCEE* **22.1**

Water Treatment Plant Site Selection / 22.1	
Arrangement of Water Treatment Plant Facilities / 22.24	
References / 22.40	

Chapter 23. Environmental Impacts and Project Permitting *Philip C. Kennedy, AICP, Jane W. Wheeler, and Betsy Shreve-Gibb, AICP* **23.1**

Environmental Issues Associated with Water Use / 23.2	
Environmental Issues Associated with Plant Construction / 23.3	
Environmental Issues Associated with Plant Operations / 23.7	
Regulatory Requirements for Construction and Operations / 23.13	
Integration of Environmental Issues and Regulatory Compliance into Plant Design, Construction, and Operation / 23.18	
References / 23.20	

Chapter 24. Architectural Design *David F. Crawford, RA, LEED AP BD+C,
Christie D. Hartnett, LEED AP, and Eduardo Galindo, AIA, LEED AP BD+C, CSI* **24.1**

The Role of the Architect in Water Treatment Plant Design / 24.1	
Facilities Design / 24.6	
Construction Alternatives and Building Material Selection / 24.15	
Acknowledgment / 24.19	
Design Standard—Promulgating Organizations and Organizations Offering Design Recommendations / 24.19	

Chapter 25. HVAC, Plumbing, and Air Supply Systems *David W. Nelson, P.E., Simeon Dee, P.E., P.Eng., and Julia V. Gass, P.E.* **25.1**

Introduction / 25.1	
Preliminary Design Considerations / 25.2	
Heating, Ventilating, and Air Conditioning (HVAC) Systems / 25.7	
Plumbing Systems / 25.24	
Air Supply Systems / 25.31	
References / 25.40	

Chapter 26. Structural Design *Todd F. Schellhase, P.E., S.E. and
Daniel Bartholomew, P.E., S.E.* **26.1**

The Structural Design Process / 26.1	
Watertightness and Durability / 26.2	

Design of Basins, Vaults, Large Conduits, and Channels /	26.5
Design of Buildings and Superstructures /	26.9
Foundation Considerations /	26.11
References and Bibliography /	26.13

Chapter 27. Process Instrumentation and Controls *David B. Kubel, P.E.* **27.1**

Process and Operational Control Strategies /	27.2
Control System Design /	27.16
Instrumentation /	27.34
References and Bibliography /	27.47

Chapter 28. Electrical Systems *John H. Wiedeman, P.E.,
Peter M. Lloyd, P.E., and Mark J. Kleveter, P.E.* **28.1**

Introduction /	28.1
Codes and Standards /	28.2
Electric Utility Service /	28.5
Switchgear /	28.8
Transformers /	28.8
Motors and Controllers /	28.9
Lighting /	28.15
Lightning Protection /	28.17
Underground Duct Banks /	28.18
Elevators /	28.18
Power Factor Correction /	28.19
Power Quality Monitoring Equipment /	28.19
Acceptance Testing /	28.20
Start-Up of Facility /	28.20
Operability /	28.21
Maintenance /	28.21
Ozone Electrical System /	28.22
Sustainable Design Practices /	28.23
Other Related Chapters /	28.24
References /	28.25

Chapter 29. Design Reliability Features *John E. Spitko, Jr., P.E.,
Joseph M. Nattress, P.E., and Joseph G. Thurwanger, P.E.* **29.1**

Introduction /	29.1
Reliability and Redundancy Concepts /	29.2
Overall Water Supply System Reliability /	29.4
Design Concepts /	29.5
Design Principles and Practices /	29.11
Reliability, Uncertainty, Variability, and Cost /	29.18
Operation and Maintenance /	29.19
References and Bibliography /	29.20

**Chapter 30. Operations and Maintenance Considerations During
Plant Design** *Richard A. Rohan, P.E., Stephen F. Baker, and Terry M. Tobel, P.E.* **30.1**

Design Considerations for Plant Operations /	30.2
Design Considerations for Plant Maintenance /	30.15

Preparing a Plant for Start-Up / 30.22
References / 30.27

Chapter 31. Operations and Maintenance Staff Training and Plant Start-Up *Thomas E. Am and Terrance D. Piekarz* **31.1**

O&M Staff Training / 31.1
Operations and Maintenance Documentation / 31.8
Facility Start-Up and Commissioning / 31.10
Post-Start-Up Considerations / 31.14
Acknowledgment / 31.14

Chapter 32. Water System Security and Preparedness
Findlay G. Edwards, Ph.D., PE., BCEE, Ken A. Thompson, and Dale D. Gabel, PE., BCEE **32.1**

Need to Protect Water Systems / 32.1
Public Health Security and Bioterrorism Preparedness and Response Act / 32.2
Department of Homeland Security (DHS) / 32.5
Components of a Security Master Plan / 32.7
Repairs and New construction / 32.12
The future / 32.13
Acknowledgment / 32.15
Bibliography / 32.15
Web links / 32.15
Abbreviations / 32.18

Chapter 33. Water Treatment Plant Construction Cost Estimating
Ronald F. Cilensek, C.C.M., Shawn D. Labonde, PE. **33.1**

Introduction / 33.1
Level of Estimates / 33.2
Alternative Project Delivery / 33.6
Estimating Methodologies / 33.6
Special Cost Considerations / 33.10
Finalizing the Cost Estimate / 33.12
References / 33.15

Appendix A. Design-Related Information About Water Treatment Chemicals *Richard E. Hubel, PE. and Vincent S. Hart, PE., LEED AP* **A.1**

Appendix B. Materials of Construction for Water Treatment Chemical Systems *Dan C. Gay, PE. and Richard E. Hubel, PE.* **B.1**

Appendix C. Abbreviations **C.1**

Appendix D. Chemical Elements **D.1**
